Creative  
Designing

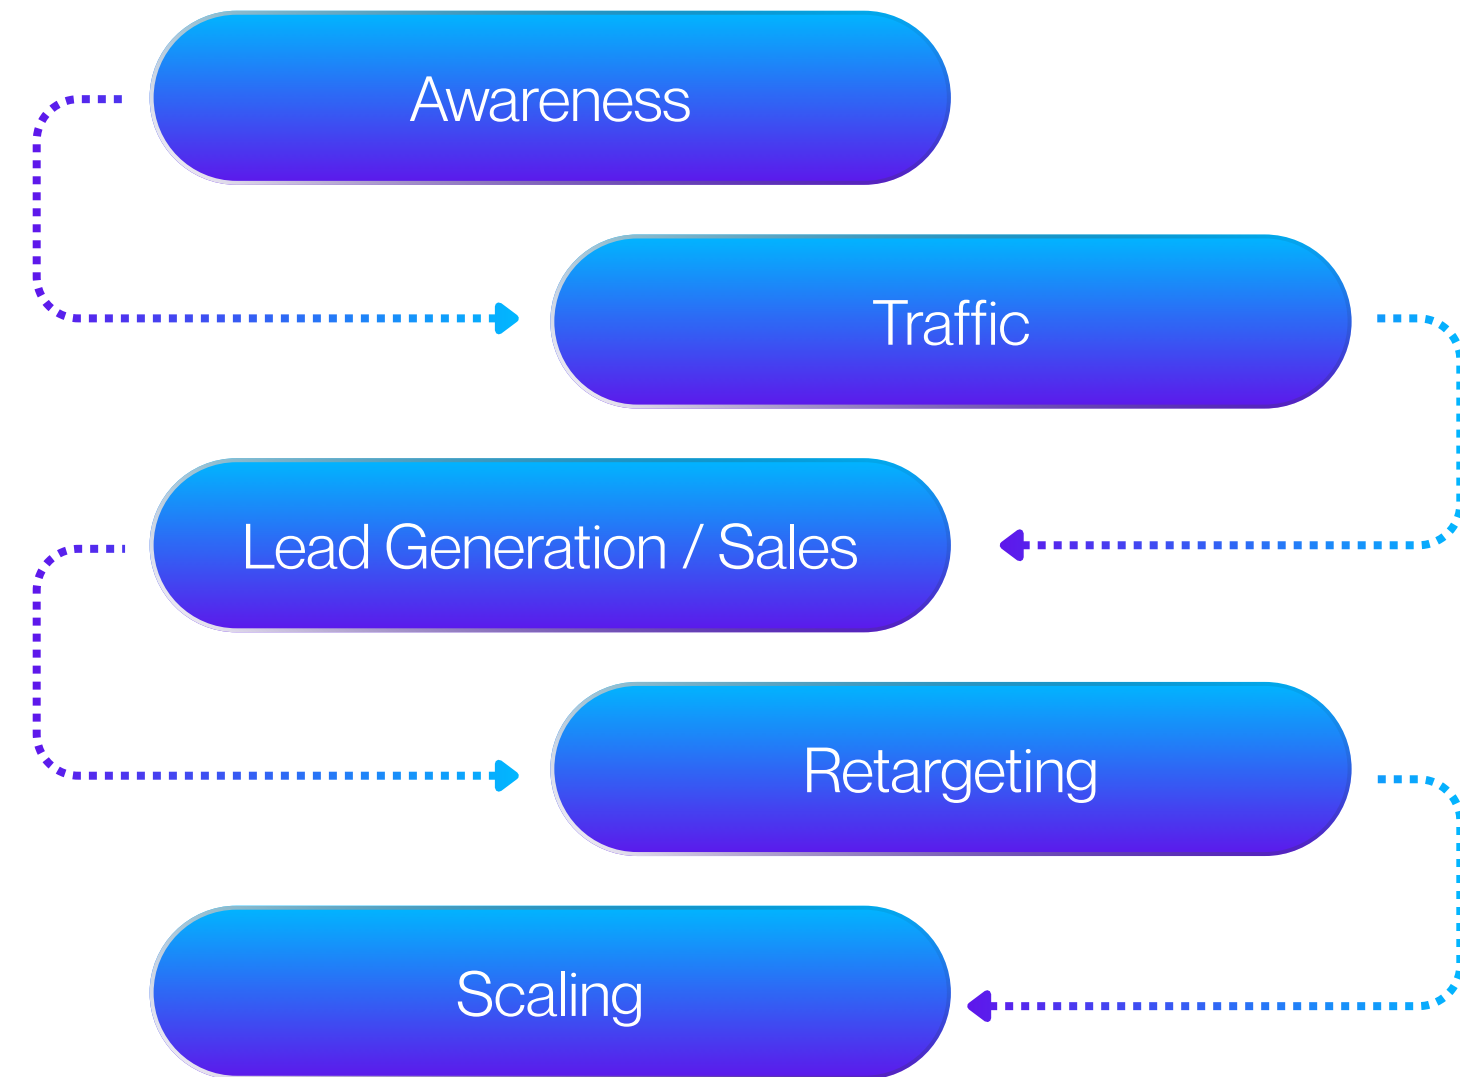

# On-Boarding Process

Our onboarding process is designed to ensure a seamless collaboration from start to finish. We begin by understanding your business goals and requirements, followed by collecting the necessary information, assets, and access. Once everything is in place, we finalize the execution plan, define timelines, and begin implementation. Throughout the project, we provide regular progress updates, performance reports, and strategic recommendations to ensure transparency and continuous growth.

# Campaign Funnel

Our campaign funnel is built to attract, engage, and convert the right audience. We start with Awareness to build brand visibility, drive Traffic to your website or landing page, optimize for Lead Generation or Sales, Retarget interested users who didn't convert, and continuously Scale successful campaigns to maximize growth and return on investment.

# Creative Strategy

Our creative strategy combines Static Creatives, Carousel Ads, AI-Generated Videos, and UGC (User-Generated Content) Creatives to capture attention, increase engagement, and drive higher conversions across every stage of the marketing funnel.
